

CruiseCare Health

Cloud-based Health Software

The CruiseCare cloud-based health solution presents a stand-alone health management platform available 24/7 for Cruise Ship Companies to oversee and manage the health and wellbeing of crew members. Our platform offers recruitment/pre-employment medicals (including vaccinations, ID Management, licences and Health Passports) for onboarding (including Job Task Analysis) and offboarding.

Completely adaptable and interactive, the Mental Health APP can be customised according to individual preferences. It is accessible to all crew members, allowing them to conduct regular mental health check-ins and gain access to suitable and relevant resources that provide assistance throughout each cruise journey.

Our software supports customised user accessibility and restrictions based on employee roles and responsibilities, ensuring that information remains confidential.

Pre-Employment Medicals

Deployment Health Checks

Off-boarding Medicals

Ongoing Health Management

- ✓ In-built health assessment builder for both physical and mental health checks

Support Your Crews Ongoing Health

- ✔ Easily create and distribute questionnaires to crew, such as:
 - Mental Health questionnaires and surveys
 - Health monitoring
- ✔ Tailor resources for participants based on questionnaire responses
- ✔ Facilitate Employee Assistance Programs (EAP)
- ✔ Create, deploy and manage PEER Support Programs (including reporting)
- ✔ Identified or de-identified options for collecting, storing and reporting on assessments and support

The screenshot shows a software interface with a navigation bar at the top containing tabs: Basic Info, Health Event, Health Surveillance, Health Management, Fit For Task (highlighted), Injury Management, Vaccinations, Skin, and Historical Documents. Below the navigation bar is a search bar with a 'Go' button and an 'Actions' dropdown. The main content area is a table with the following columns: Edit, Health service, Appointment, Completed date, Notes, Documents, Enter results, and Recall. The table contains three rows of data:

Edit	Health service	Appointment	Completed date	Notes	Documents	Enter results	Recall
	Overseas Travel Assessment	30-APR-2021 08:57AM	05/11/2021			✔	30/12/2021
	Fit For Task Assessment (multi-category)	12-MAY-2021 02:10PM	01/09/2021			✔	31/05/2021
	Overseas Travel Assessment	17-MAY-2022 11:59AM	26/05/2022			✔	03/03/2023

Employee/ Contractor Health Record

- ✔ Maintain health records across a broad spectrum of categories including
 - Vaccinations
 - Injury management
 - Health monitoring
 - Health assessments
 - Health programs
- ✔ Export detailed dynamic reports

Security Overview

Our partners and clients can trust us to take care of their data, privacy and security requirements.

Oracle Cloud Services

Oracle data centres are Australian based and all data stored in either Melbourne or Sydney.

OCI Infrastructure

We utilise OCI cloud infrastructure deployed on autonomous databases only.

256 Bit Encryption

This encryption technique uses a 256 bit key to encrypt and decrypt data which is one of the most secure methods available.

EBS Volume Encryption

Elastic Block Security is an encryption technique which provides the ultimate protection for cloud storage and personal identity information.

Privacy Compliancy

We comply with ALL Australian privacy and data compliance requirements. We are an ACSC (Aust. Cyber Security Centre) Network Partner Organisation.

Live Monitoring

We utilise Oracle Cloud Guard for live monitoring, angle of attack and threat identification.
